

# TV Show Tracker Program

## Description

*The TV Show Tracker is a handy application designed for TV enthusiasts who want to keep track of their favorite TV shows. It can search for shows on various online TV Guide sites, find out the showtimes and channels, and notify the user via email or on-screen alerts. This ensures you never miss an episode of your favorite series.*

### Key Features:

- **Show Search:** Search for TV shows across multiple online TV Guide sources.
- **Show Details:** Retrieve detailed information about the shows including showtimes and channels.
- **Notifications:** Get notifications via email or on-screen alerts when a show is about to start.
- **Database Integration:** Stores show details and user preferences in a database for quick access and management.
- **User Interface:** Provides a user-friendly interface to search for shows, view details, and manage notifications.

### How to Use:

1. **Run the Application:** Start the application using your Python environment.
2. **Search for Shows:** Use the search functionality to find your favorite TV shows.
3. **View Show Details:** Select a show from the search results to view detailed information about showtimes and channels.
4. **Set Notifications:** Configure notifications to alert you when your favorite shows are about to start.
5. **Manage Shows:** Use the interface to manage your tracked shows and update notification preferences as needed.

*This application helps you stay on top of your TV show schedule, ensuring you never miss an episode of your favorite series again.*
